FIREGUARD PRO - FIRE PUMP CONTROLLER

www.bkbgroup.com.au

PRODUCT OVERVIEW

The **FIREGUARD PRO** is a fully compliant AS2941:2013 fire pump controller, designed specifically for diesel engine fire pumps. Delivering precise auto start/stop functionality, speed regulation, system monitoring, alarm protection, and remote connectivity, it ensures dependable performance when it matters most.

Equipped with CANBUS (SAE J1939), it seamlessly interfaces with both ECU and non-ECU engines, making it one of the most versatile controllers in its class.

KEY FEATURES

- AS2941:2013 Compliant
- 5" Colour LCD Display – Clear real-time visibility of engine & pump parameters
- LED Status & Fault Indicators – Instant visual alerts for critical conditions
- Auto Start/Stop & Speed Regulation – Reliable operation without user intervention
- Remote Monitoring Ready – Full connectivity via Modbus, Ethernet, RS485 & CANBUS

POWERFUL I/O & CONNECTIVITY

Component	Specification
Relay Outputs	13
Digital Inputs	13
Analogue Inputs	6
Event Log Memory	500 stored logs
Communication	Modbus /Ethernet /RS485 /CANBUS

OUR LOCATIONS

BKB Group operates Australia-wide, with a presence in key locations including Victoria, Queensland, New South Wales, South Australia and Western Australia. Our new head office and purpose-built factory in Pakenham, Victoria, marks a significant milestone in our growth, enhancing our manufacturing capabilities and improving production efficiency. This state-of-the-art facility allows us to better serve our clients across the country, ensuring timely delivery of high-quality products and solutions.
